

PAH / PAH-K

The KYBURZ PAH is the classic original for the DXP and ideal when more than usual must be transported. The PAH has proven its reliability during its long service in the Swiss Post. The suspension and the overrun brake guarantee a stable and safe ride.

The KYBURZ PAH-K is based on the PAH. The large loading volume and a payload of 125 kg enable a wide range of transport options. With the hinged tailgate, quick emptying is effortless.

PAH	item no. 590520.17	PAH-K	item no. 590540.01
Length	1470 mm	Length	1514 mm
Width	900 mm	Width	926 mm

Load volume (to load edge)	0.3 m ³	Load volume (to load edge)	0.5 m ³
Empty weight	55 kg	Empty weight	75 kg
Permissible total weight	200 kg	permissible total weight	200 kg

PAH-F / PAH-W

The PAH-F offers a larger load volume than the PAH and can be towed by the KYBURZ DXP or DXC. The PAH-F with the fixed box has a payload of 160 kg. The cargo is protected from the weather in its spacious load compartment.

The PAH-W transports goods in combination with an interchangeable box and can be pulled by the KYBURZ DXP or DXC. The interchangeable box can be pulled onto the trailer with the help of an installed cable winch and is secured with several locking systems.

Solutions for electric mobility are our speciality

The company

KYBURZ Switzerland AG was founded by Martin Kyburz in 1991 and is based in Embrach, near Zurich. As a SME with over 150 employees, the company develops and produces high-quality electric vehicles for delivery and industrial companies, as well as for private individuals.

More than 30'000 KYBURZ vehicles are in use around the world; the best-known model, the KYBURZ DXP, can be seen out delivering post on the streets in many different countries.

Ensuring the servicing and maintenance of your products is the company's top priority. At KYBURZ, the focus is on the joy of innovation, sustainability and environmental friendliness.

KYBURZ Switzerland AG looks forward to the future, building on solid craftsmanship and many years of experience.
