

 **KYBURZ**

eTrolley

eTrolley – the most important advantages at a glance

The KYBURZ eTrolley is an emission-free, electrically powered hand truck. It was developed in collaboration with renowned postal companies for efficient operation in urban areas. The KYBURZ eTrolley can be customised to meet individual customer requirements.

Performance

High load capacity combined with large volume reduces empty runs on distribution routes
Infinitely variable speed up to a maximum of 6 km/h
High pulling power even on inclines

Safety

Automatic parking brake
Theft-proof transport of goods thanks to covers with electronic central locking
Electric main safety switch as tamper protection

Ergonomics

Effortless negotiating of kerbs thanks to climbing wheels
Healthy, upright posture on the distribution route

Low operating costs

High-quality, maintenance-free batteries
No traditional wear parts

Sustainability

Emission-free drive system
Sustainable components for a long product life cycle

Image

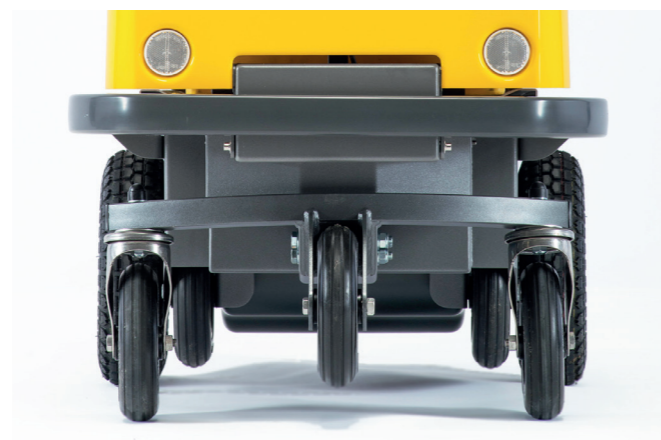

Environmentally friendly and responsible
Silent electric mobility

KYBURZ eTrolley – customised superstructures, high load capacity

Ergonomic operation

Climbing steps thanks to additional climbing wheels

Saves time and reduces costs

The high payload of the eTrolley (120 kg or 265 lbs) means that the number of drop-off points for retrieving mail can be halved:

- Avoids costs for depot deliveries
- Optimisation of routes without trips to the depot

Higher average speed:

- 10%–20% faster delivery speed thanks to electric drive leads to 3–5% time savings.

Motivational boost for employees:

- Less physical strain and higher motivation result in fewer sick days and promote employee satisfaction.

Combined delivery of letters and parcels:

- Large transport volumes enable additional parcels to be taken along the route.

Typical delivery process with a hand truck

Delivery process with the KYBURZ eTrolley

Savings (sample calculation)

10 minutes per day refilling + 14 minutes delivery = 100 hours per year

eTrolley at a glance

eTrolley 4BG+
Art.-No. 590609.00

- Load capacity up to 120 kg
- Pockets for holding containers
- RFID key

eTrolley 8+1
Art.-No. 590618.00

- Suitable for post containers
- Electronic central locking
- Load capacity 120 kg (265 lbs)
- RFID key

eTrolley 8BG
Art.-No. 590608.00

- Economical solution for 8 mail bags
- Payload 120 kg (265 lbs)
- RFID key

eTrolley Box
Art.-No. 590612.01

- Suitable for letters and parcels
- Payload 150 kg (330 lb)
- RFID key
- Electronic central locking

eTrolley Base
Art.-No. 590613.01

- Suitable for many purposes, e.g. for heavy toolboxes
- Makes tools and special attachments easily available everywhere
- RFID key

eTrolley Table
Art.-No. 590607.01

- Universally applicable
- Transport of heavy goods
- Payload 150 kg (330 lb)
- RFID key

Designed for custom applications

The eTrolley system has proven itself in tough everyday use in industry and postal services. The various configurations cover individual customer requirements. The load can be secured electronically and access to the load is ergonomically optimised.

KYBURZ eTrolley – the technology

- Electric and environmentally friendly
- Automatic brake
- RFID – Contactless key
- Central locking for the compartments
- High payload
- Manoeuvrable: Can turn on the spot
- Robust design with dip-coated frame for a long service life

Technical specifications

Speed	6 km/h
Range	10–20 km
Gradeability	up to 15%
Width	580 mm – 678 mm
Length	1674 mm
Batteries	LiFePO ₄ , maintenance-free
Motor	DC with 1 kW peak power
Gradeability	max. kerb height 12 cm with climbing wheels

eTrolley Table (Art.-No. 590607.01) in use with a ride-along board (Art.-No. 111424.04).

Solutions for electric mobility are our speciality

The Company

KYBURZ Switzerland AG was founded in 1991 by Martin Kyburz and is headquartered in Embrach near Zurich. As an SME with over 150 employees, it develops and produces high-quality electric vehicles for delivery and industrial companies as well as for private individuals.

More than 30'000 KYBURZ vehicles are in use worldwide; the best-known model, the KYBURZ DXP, has become a distinctive feature on the streets in many countries.

Ensuring top quality service and maintenance of its products is a high priority for the company. At our core we value innovation, sustainability, and climate friendliness: KYBURZ Switzerland AG is looking forward to the future and can build on solid craftsmanship and many years of experience.
